**REQUEST FOR RECONSIDERATION OF**  
**PETITION UNDER 37 C.F.R. §1.47(a)**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**Attention:**  
**Derek L. Woods, Petitions Attorney**  
**Office of Petitions**

Sir:

This request for reconsideration is filed in response to the decision dated April 28, 2004, and together with a petition for extension of time. Acceptance of the application papers submitted together with the petition filed February 11, 2004, pursuant to 37 C.F.R. §1.47(a), is again respectfully requested.

1. Initially, with respect to the comments set forth in footnote 1 on page 2 of the decision, in order to clarify the record, attached to this request for reconsideration as Exhibit I is a Second Statement of Ralf Frieser. It is clear from Exhibit I that all application papers, rather than only the Declaration and Power of

Attorney and Assignment papers, were sent by Mr. Frieser for execution to the non-signing inventor, Anders Warming, on June 25, 2003 and August 25, 2003.

2. It is the understanding of the undersigned, pursuant to a telephone conversation with the Petitions Attorney, Mr. Woods, on May 6, 2004, that only item (1) referred to in the first paragraph of the "Applicable Law" portion on page 2 of the decision dated April 28, 2004, is considered lacking. As noted during this conversation, the 24 executed Declaration and Power of Attorney documents filed February 11, 2004, including the signatures of 25 out of the 26 inventors named in the present application, should constitute acceptable declarations, and a statement of the last known address of Anders Warming appears in section 5 on page 1 of the initial Statement of Ralf Frieser filed February 11, 2004.

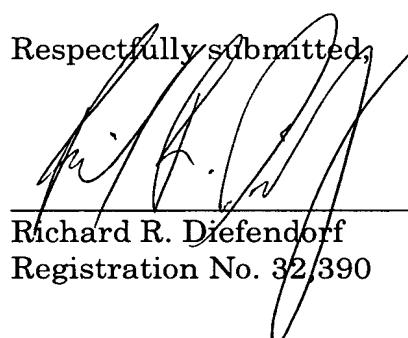

3. Exhibit II attached to this request for reconsideration shows the results of Internet searches for the non-signing inventor, Anders Warming. By recorded message, the undersigned was advised that one of the telephone numbers uncovered by these Internet searches, 818-591-7579, has been disconnected or is no longer in service, and, by an individual answering a call to another telephone number uncovered, 310-589-7052, the undersigned was advised that Anders Warming did not have that other telephone number.

4. Exhibit III includes copies of correspondence sent by certified mail, together with all application papers, to Anders Warming at (a) the address shown on the title page of international publication WO 02/051688 A2, which is based on international application PCT/EP01/15203, of which the present U.S. Patent

application is a continuation, and (b) the four most recent addresses uncovered by the Internet searches referred to in section 3 above. As evidenced by the copies of the envelopes also included in Exhibit III, none of the correspondence sent to Anders Warming could be delivered, and all of that correspondence was returned.

It is submitted that the attempts to reach Anders Warming discussed in the initial Statement of Ralf Frieser filed February 11, 2004, in the Second Statement of Ralf Frieser attached hereto as Exhibit I, and in sections 2 and 3 of this request for reconsideration establish that a diligent effort has been made to locate the non-signing inventor. Acceptance of the application papers submitted together with the petition filed February 11, 2004, pursuant to 37 C.F.R. §1.47(a), is in order and is again requested.

Respectfully submitted,

SECOND STATEMENT OF RALF FRIESER

I, Ralf Frieser, incorporate by reference herein the declarations made in my prior statement executed January 19, 2004, and further declare as follows:

1. On June 25, 2003, Declaration and Power of Attorney and Assignment documents were sent for execution, along with a copy of the application data sheet and a copy of the application which has now been assigned the serial number identified above, including 53 pages of specification, with 59 claims and abstract, and 16 sheets of drawings, showing Figures 1-40, to inventor Anders Warming at the offices of DesignworksUSA, the U.S. employer of that inventor and an affiliate of BMW.
2. As executed papers were not returned, a further copy of the application and further copies of the application data sheet and the Declaration and Power of Attorney and Assignment documents were sent to Anders Warming at the offices of Designworks USA, together with a reminder of the need for executed papers, on August 25, 2003.

All statements made herein of my own knowledge are true; all statements made herein on information and belief are believed to be true; and further these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and may jeopardize the validity of the application or any patent issuing thereon.
